Note: Items Hand I are optional. Completing these items will assist EPA and State and local governments in locating and assessing hazardous waste sites. Although completing the items is not required, you are encouraged to do so.

H Sketch Map of Site Location: (Optional)

Sketch a map showing streets, highways, routes or other prominent landmarks near the site. Place an X on the map to indicate the site location. Draw an arrow showing the direction north. You may substitute a publishing map showing the site location.

**I Description of Site: (Optional)**

Describe the history and present conditions of the site. Give directions to the site and describe any nearby wells, springs, lakes, or housing. Include such information as how waste was disposed and where the waste came from. Provide any other information or comments which may help describe the site conditions.

Bethlehem Steel has been dumping at this site for years. The Hinks and Run Damn is right next to this site. East Conemaugh is directly below this site. About 25 people have died of cancer here in the last few years. The population of E. Conemaugh is only 2,000. In the last two years about seven women have died of brain tumors!

In 1975 I saw Bethel Steel dumping at night, at this location, beside Hinks and Run Damn. At this time a tanker would pull up and dump through a hose into the ground. Now the land has become saturated and swamps have formed of this unknown chemical. All the vegetation around this area has died.

I hope you will investigate!

J Signature and Title:

The person or authorized representative (such as plant managers, superintendents, trustees or attorneys) of persons required to notify must sign the form and provide a mailing address (if different than address in item A). For other persons providing notification, the signature is optional. Check the boxes which best describe the relationship to the site of the person required to notify. If you are not required to notify check "Other".
